Colorado Time System's Timing Console offers USB Support

Colorado Time Systems announced full USB functionality for their System 6 Timing Consoles. USB functionality allows users to:

- Utilize over 2500 USB printers
- Use memory stick for meet data transfer
- Keyboard support
- Mouse support

Based in Loveland, Colorado, Colorado Time Systems has established a reputation for precision and innovation in swim timing equipment. Since 1972, premier aquatic facilities have chosen Colorado Time Systems for platinum quality timing, scoring, and display systems.
